

Bellarmino's Terracycle Recycling Initiative

In 2016, **Bellarmino's Healthy Earth Team** launched a recycling center for difficult-to-recycle materials. We are teaming up with **TerraCycle**, a company that recycles, upcycles, and repurposes a whole range of products that otherwise end up in our landfills.

Since its founding, TerraCycle has recycled billions of pieces of waste while also helping organizations to fundraise money for their community. To date, TerraCycle participants have raised over \$15 million for charities. All of Bellarmine's collected recyclables will earn money to benefit our Transformation Fund. To learn more about TerraCycle, check out their website at: www.TerraCycle.com

How can you be involved? A collection bin is set up in the choir-side hallway. Just look for the logo below! The products we are now collecting are listed below too (you can cut/save the list on your fridge!).

*Any questions or interested in getting involved in Bellarmine's Healthy Earth Team?
Contact our Director of Social Mission Tim Severyn at severynte@xavier.edu*
