

## Befriending the Stranger: Sharing the Journey

As a parish, we want to respond to Pope Francis's challenging call to "share the journey" with our brothers and sisters who find themselves in a precarious situation of displacement. We realize that this invitation involves much more than a call to service or action; it implicates the way we appropriate the news, the way we pray, both individually and communally, the way we understand who is our neighbor. If we can learn together how to embrace the gift of God's presence in our migrant sisters and brothers, we will have expanded our self-understanding as disciples in our world today.

*We hope that you will join us on this journey!*
