“Owning a home will impact my family in various way!”

~Tyleah P.

Tyleah is the mother of two daughters named Alijah and Aria. Alijah enjoys listening to music, baking, and spending time with her friends. Aria loves reading, nature, animals, watching the Disney channel. Just like her big sister, Aria enjoys spending time with family and friends. Tyleah is currently employed at Cincinnati Public Schools as a substitute teacher and Bayley Place as a Nurse Aide. She first found out about Habitat over 17 years ago from a friend. Which was the first time she applied but did not qualify. In the summer of 2020, she expressed how her neighbor told her to look into the program again. Now she is becoming a Habitat homeowner and is very grateful.

She states “we come from a family of low incomers who was not taught about equity, higher education, homeownership, but there was still so much love in our family”. Owning her own home will be the change agent in her family. Tyleah's goals are to have a deeper relationship with God and lead her family to have a relationship with God. She hopes that having this new home will motivate the rest of her family to strive towards being a homeowner and not settling for renting. Tyleah voiced how owning a home is a major growth lesson, that will build her skill set by learning to do lawn care, landscaping, and gardening.
